Deceased was a native of death was caused by heart disease.

Poisonen .- Mr. Robert Thurston, while bathing in the sea at Kanrobe, Oahu, received a wound on his foot, which excited no concern, as it was thought to be simply a bruise from coral or what is generally knowe as "a stone bruise." Several days after his return from Koolan, the wound began to infinme, cousing interse pain, accompanied with toflummation. Dr. McGrew was called in and applied the usual remedies. The disease rapidly increased and inflamed the leg, giving every evidence of violent poison, which has endangered the life of the patient, who is not yet out of danger. It is now supposed that he was poisoned by a small shell fish From St. Francisco, per Bilado, April 9-2-001 page floor,

Sea Over Howers .- Last year three or four vessels sailed from San Francisco for capturing seals and sea others off the Kamskatka shores. To season, a larger first has been fitted out for the same purpose, most of the vessels touching here for supplies. One of the schooners which was em played in this service last year is said to have cle to its owners some \$17,000 over all expenses. This is a large return on a venture of five or six thousand dollars. The far of the sea otter is said to be very valuable, the skins bringing from fifty to seventy five dollars each, according to size. Now if there is so great profit in this business, a share of it should be secured to this port, where schooners and sailors can be had at all times. The sea otters are always killed with a rifle ball, shot through the head, so as METER—to Bosolein, April 14, by drawning R. Mayer, and to injure the skin.
